Sustainable Food Systems Fellow  
Office of Sustainability

Description
As Connecticut College continues to expand its efforts to become a model of sustainability within higher education, an important area of work is the food system. The Sustainable Food Systems Fellow will be responsible for working closely with staff, faculty, and students from across campus to determine the best ways to expand existing and establish new initiatives to foster sustainable food systems utilized by the College.

Some of the responsibilities that the Sustainable Food Systems Fellow will have are:
- Support the implementation of the Sustainable Food Purchasing Parameters,
- Research and develop long-term proposals that would expand the College’s ability to produce and/or purchase more sustainable food,
- Work to solidify the collection of food scraps at all major events on campus (Admitted Students’ Days, Convocation, Commencement, etc),
- Work with Sprout to bring awareness to food production on campus,
- Plan and run educational events,
- Attend weekly Food Team meetings,
- Attend regular Office of Sustainability all-staff meetings,
- Commit to taking the 2-credit Applied Sustainability seminar the fall that you join the office, and
- Other duties as assigned.

Requirements
- Strong writing skills and interpersonal skills
- Proficient with Excel, Word, and PowerPoint
- Confidence in working under pressure with short timelines
- Comfortable working with a wide variety of constituents (i.e. students, staff, administrators)
- Broad understanding and interest in the many facets of sustainability
- Ability to formulate new ideas based on current programs and campus needs
- Prior experience strongly suggested, but not required
