Connecticut College Campus Community Coalition –“Coalition”
October 11, 2016
Agenda

CCCCC Mission-Connecticut College

The Connecticut College campus/community coalition will work collaboratively with students, faculty, staff and community members toward the goal of developing and enhancing sustainable evidence-based, culturally competent suicide prevention and mental health promotion policies, practices, and programs. Furthermore, the work of the coalition will help to enhance our current infrastructure and create collaborative policies that ensure coordinated, respectful and supportive care for students in emotional crisis. Finally, it will identify needed mental health outreach/prevention/education to students, faculty and staff, and means to reduce the stigma of mental illness/seeking treatment at Connecticut College.
