3. HAZARDS IDENTIFICATION

**EMERGENCY OVERVIEW**

**For product as sold:**

Clear liquid with a rubbing alcohol odor.

**Warning! Flammable liquid and vapor. Causes eye irritation. May cause irritation to skin, eyes, and respiratory tract. Overexposure to isopropanol vapors may cause central nervous system depression.**

In case of fire use water fog, “alcohol” foam, carbon dioxide

**POTENTIAL HEALTH EFFECTS**

**PRIMARY ROUTE(S) OF ENTRY**

Inhalation (breathing), eye and skin contact.

**SYMPTOMS OF EXPOSURE**

**For product as sold:**

Skin Contact: Repeated or prolonged skin contact may cause dryness, reddening, itching and inflammation. May cause skin irritation and sensitization.

Eye Contact: Direct contact causes severe irritation and pain.

Inhalation: May irritate the respiratory tract and mucous membranes. Overexposure to isopropanol vapors may cause central nervous system depression; symptoms include headache, dizziness, nausea, vomiting. Severe overexposure can cause unconsciousness or death.

**Ingestion:** May cause digestive tract irritation and symptoms similar to those listed for inhalation.

**For diluted product as used:**

May cause mild eye and skin irritation. May cause skin sensitization.

**MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE**

Persons sensitized to isopropyl alcohol are at risk.
REPORTED AS CARCINOGEN OR POTENTIAL CARCINOGEN

✓ Not Applicable

OSHA Suspect Carcinogen

4. FIRST AID MEASURES

Skin contact: Wash affected areas with plenty of water, and soap if available, for several minutes. Seek medical attention if irritation develops and persists.

Eye contact: Immediately rinse eyes with water. Remove any contact lenses, and continue flushing eyes with running water for at least 15 minutes. Hold eyelids apart to ensure rinsing of the entire surface of the eyes and lids with water. Get immediate medical attention.

Inhalation: Remove from area to fresh air. Seek medical attention if respiratory irritation develops or if breathing becomes difficult.

Ingestion: Give 3-4 glasses of water, but DO NOT induce vomiting. If vomiting occurs, give fluids again. Get medical attention to determine whether vomiting or evacuation of stomach is necessary. Do not give anything by mouth to an unconscious or convulsing person.

NOTE TO PHYSICIAN

Symptomatic and supportive treatment is generally all that is needed. Metabolism of isopropanol forms acetone which may be detected in the serum and urine. Determine the isopropanol concentration in the serum and monitor for acidosis and hypoglycemia. Gastric lavage may be effective if performed soon after oral ingestion, in patients who are comatose, or patients at the risk of convulsing.

5. FIRE FIGHTING MEASURES

Flash Point and Method ............. 80° F (closed cup) - as sold.

GENERAL HAZARD

Fire or excessive heat may produce hazardous decomposition products.

EXTINGUISHING MEDIA

In case of fire use water fog, “alcohol” foam, carbon dioxide (CO₂), or dry chemical.

SPECIAL FIREFIGHTING INSTRUCTIONS

None known.

FIREFIGHTING EQUIPMENT

As in any fire, wear NIOSH approved, positive-pressure self-contained breathing apparatus and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

For product as sold:

Wear appropriate protective equipment (See Section 8).

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Ventilate area of leak or spill. Absorb with kitty litter, sand or earth package in a suitable container for disposal. Use a plastic broom and shovel when collecting spilled material.

For product as used:

May be flushed into sewer.
