Material Safety Data Sheet

Product Number  6307. 6308
Date Prepared: May 2003
Revision Date: April 2004

SECTION 1: Manufacturer Identification

Mason Color Works, Inc.
250 East 2nd Street P.O. Box 78
East Liverpool OH 43920-5076
Phone (330) 365-4400
Fax. (330) 365-4488

HMIS Classification

| Health | 2* |
| Flammability | 0 |
| Reactivity | 0 |
| Personal Protection | See Section 6 |

*Indicates possible chronic health effects

SECTION 2: Identification of Product

Chemical Family: Inorganic
Product Names: Pastel 6307, Delphinium Blue 6308
Chemical Abstract Number (CAS): 68608-06-3, 10101-52-7
Chemical Name: Cobalt Tin Alumina Blue - Spinal
Chemical Formula: CoAl2O3SnO3

SECTION 3 & 4: Hazardous ingredients Identify/Information and Overexposure Symptoms

ACGIH: The value for particulate matter containing no asbestos and 1% crystalline silica.

SYMPTOMS OF OVEREXPOSURE

**Inhalation**: Acute may cause coughing and shortness of breath. Chronic may adversely affect breathing capacity.
**Eye Contact**: Direct contact may cause irritation.
**Skin contact**: May cause abrasions.
**Ingestion**: May cause irritation.

ACGIH: Animal carcinogen. Agent's carcinogenic in experimental animals at dose levels, by route(s) of administration at site, or histologic type, or by mechanism considered relevant to workers' exposure. Available epidemiology studies do not confirm an increased risk of cancer in humans except under common levels of exposure.

SYMPTOMS OF OVEREXPOSURE

**Inhalation**: Prolonged inhalation of dust or metal dust, and fume or mist containing cobalt may cause serious respiratory illness. May cause irritation of respiratory organs of sensitive persons resulting in obstruction of airways with shortness of breath.
Eye Contact: May cause serious eye irritation
Skin Contact: Prolonged exposure may produce irritation
Ingestion: Large amounts may cause irritation of the gastrointestinal tract, nausea, vomiting and diarrhea.

**SYMPTOMS OF OVEREXPOSURE:**

**Inhalation:**
- Prolonged exposure to respirable crystalline silica (quartz) can cause Silicosis, a fibrosis (scarring) of the lungs. Silicosis may be progressive; it may lead to disability and death. Silicosis increases risk of Tuberculosis.
- Inhaled from occupational sources is classified as carcinogenic to humans. (cancer)
- There is evidence that exposure to respirable crystalline silica or that the disease Silicosis is associated with increased incidence of Scleroderma, an auto-immune disorder manifested by fibrosis (scarring) of the skin and internal organs.
- There are several studies suggesting that exposure to respirable silica or that the disease Silicosis is associated with the increased incidence of kidney disorders (Nephrotoxicity)

**Eye Contact:** May cause abrasions of the cornea

**Skin Contact:** Not applicable

**Ingestion:** Not applicable

</tbody>
</table>

**SYMPTOMS OF OVEREXPOSURE:**

**Inhalation:** No information found on acute overexposure. Chronic exposure to tin oxide fumes or dust may result in Sennosis, a form of Phenomenitis

**Eye Contact:** Abrasive, mildly irritant

**Skin Contact:** Possible irritant

**Ingestion:** Considered non-toxic

**SYMPTOMS OF OVEREXPOSURE:**

**Inhalation:** Acute inhalation to respirable dust which contains radioactive uranium, thorium and radium may cause lung cancer.

**Eye Contact:** May cause irritation with discomfort, tearing or blurring of vision

**Skin Contact:** Not applicable.

**SECTION 5: Emergency and First Aid Procedures**

Eye: Flush thoroughly with water for 15 minutes
Skin: remove contaminated clothing, wash thoroughly with soap and water.
Inhalation: remove to fresh air, may give oxygen if needed.
Ingestion: give large amounts of water to induce vomiting, only in conscious persons

**IF THESE FIRST AID MEASURES FAIL, CONSULT A PHYSICIAN**

Principal Routes of Entry:

**Inhalation:** Dust from this product may cause irritation of the respiratory system

**Overexposure may cause lung damage.**

**Ingestion:** Large amounts may cause irritation of the gastrointestinal tract, nausea,
vomiting and diarrhea.

Skin & Eye: Nuisance dust, prolonged or repeated may cause irritation.

**SECTION 6: Special Protection Information**

Respiratory Protection: Use only NIOSH/OSHA approved respiratory protection with adequate ventilation. Avoid breathing dust. Do not exceed Occupational Exposure Limit. Wash thoroughly after handling. No food or beverage should be consumed in work area.

Personal Protective Equip: Wear appropriate gloves and goggles to avoid skin and eye contact. Safety showers and eye stations must be present in work stations.

Ventilation: Use local exhaust or mechanical such as a dust collector to maintain dust levels below Occupational Exposure Limits.

**SECTION 7: Physical and Chemical Characteristics**

- Boiling Point: N/A
- Solubility in water: trace
- Vapor Pressure (mmHg): N/A
- Vapor Density (air=1): N/A
- Appearance: Odor: Odorless
- Specific Gravity (water=1): N/A
- Evaporation rate: None
- % Volatile by volume: None

**SECTION 8: Reactivity Data**

- Stability: Stable
- Hazardous Polymerization: Will not occur
- Incompatibility: None
- Hazard Decomposition of product: N/A

**SECTION 9: Fire and Explosive Data**

- Flash point: N/A
- Flammable Limits: None
- Unusual Fire and Explosion Hazard: None expected
- Extinguishing Media: Carbon Dioxide, dry chemical or water
- Special Fire Fighting Procedures: Wear self contained breathing apparatus when large quantities involved

**SECTION 10: Spill or Leak Procedures**

Contain spillage and scoop or vacuum. Avoid making dust; put in appropriate container for disposal. Waste disposal method in accordance with Federal, State and Local Laws.

This product is a blend of various metal oxides, salts and some compounds which are interused by high calculations to form the finished product. Section 3, Hazardous ingredients Identify/Information, and Section 4, Symptoms of Overexposure, pertain to individual components. Section 5 through Section 10 are in reference to the finished product.

* * * * * Attention all Retailers of Mason Stains * * * * *

ALL retailers of this product are REQUIRED by law to supply their customers with a copy of material safety data sheet with initial purchase.
SARA 313

This product contains certain oxides and compounds which are subject to reporting requirements of Superfund Amendment and Reauthorization Act (SARA) of 1986, Section 313 of the Emergency Planning and Community Right to Know Act and of 40 CFR, Part 372.

The information contained in this MSDS must be provided to every employee who is exposed to this product in any way. We recommend the user reads and understands the contents herein before using this material.

PLEASE KEEP ON FILE FOR FUTURE REFERENCE. DO NOT THROW AWAY! MSDS’S ARE REQUIRED FOR FIRST SHIPMENT, AND WILL BE SENT AGAIN WHEN REVISED UPON YOUR NEXT ORDER OF PRODUCT OR BY REQUEST.
