Description
As Connecticut College continues to expand its efforts to become a model of sustainability within higher education, an important area of work is educating students on how everyone can live more sustainably by living in unity. While a majority of students live on campus, it is easy to know of several organizations but not be involved. We believe a collaboration with the organization through a student representative will help to strengthen the relationship between the community and the Office of Sustainability. Each Sustainability Liaison Fellow will be assigned to one or more of the follow offices or departments on campus to work closely with to educate their peers about goals shared by their assigned offices and the Office of Sustainability: Center for the Comparative Study of Race and Ethnicity (CCSRE), Unity House, the LGBTQ Center, OVCS, the Women’s Center, and the REAL office.

The Sustainability Liaison Fellows will have the following responsibilities:
• Work closely with their assigned centre/organization to develop projects and campaigns that will help educate the community about specific sustainability related topics;
• Serve as a contact person and resource for all information and opportunities around their centre and the Office of Sustainability in order to share challenges and discuss solutions;
• Plan events and programs that focus on educating those who may not be affiliated with their specific centre as well as educate them about the Office of Sustainability and its current and future projects;
• Other duties as assigned.

Requirements
• Passion for working with people, including their peers, about sustainability
• Ability to work with peers who come from various backgrounds and may have different views
• Strong interpersonal and communication skills
• Strong writing and analytical skills
• Proficient with Excel, Word, and PowerPoint
• Comfortable working with a variety of campus constituencies (staff, students, faculty)

Compensation
Mandatory participation in 2-credit Applications of Sustainability Seminar (SUS 293) that meets Fridays from 11:50am-1:05pm. The course is taken pass/fail.

Supervisors
Josh Stoffel, Co-Director                  Senior Fellow for Campus Community Collaborations
