**Sustainable Land Management Fellow**
**Office of Sustainability**

**Description**
As Connecticut College continues to expand its efforts to become a model of sustainability within higher education, an important area of work is land management. The College has been dedicated to utilizing and managing our land in a sustainable way since it was established. The Sustainable Land Management Fellow will work collaboratively with people across the campus community to expand upon existing efforts and to formalize the sustainable practices that have been in use for many years.

The Sustainable Land Management Fellow will have the following responsibilities:
- Continue to develop a proposal for an invasive species removal program that would utilize farm animals, instead of chemical treatments or intensive mowing;
- Finalize the Sustainable Practices for Land Management Policy and move it through the approval process;
- Research and develop proposal for the establishment of a sustainable farm on College property;
- Work to formalize and expand an organic lawn care procedure;
- Positively contribute to the warm atmosphere of the Office of Sustainability;
- Attend various Office of Sustainability sponsored events;
- Other duties as assigned.

**Requirements**
- Proficient with Excel, Word, and PowerPoint
- Strong interpersonal skills
- Excellent writing and analytical skills
- Comfortable working with a variety of campus constituencies (staff, students, faculty)
- General knowledge of sustainability
- Other duties as assigned

**Compensation**
Mandatory participation in 2-credit Applications of Sustainability Seminar (SUS 293) that meets Fridays from 11:50am-1:05pm. The course is taken pass/fail.

**Supervisors**
