

2025 SALT Conference

*Smaller American
Lawns Today!*

Saturday,
Nov. 8

10 a.m. to
4 p.m.

The Resilient Landscape: *Gardening for Extreme Weather*

Explore the challenges that shifts in climate and the tendency for more extreme weather events pose to garden design, maintenance and plant health. Learn strategies for creating garden spaces that are more resilient to our increasingly unpredictable weather.

Tickets: \$70 -or- \$60 for members of the Connecticut College Arboretum or Wild Ones

Registration includes continental breakfast, coffee and lunch.

Connecticut College, Oliva Hall in the Cummings Arts Center

270 Mohegan Avenue, New London CT 06320

Resilient Coastal Landscape Design: A Multi-pronged Approach to Heal, Protect, and Enhance Shoreline Ecosystems

*Tara Vincenta PLA, FASLA
