

By the Numbers

*Connecticut College in the State and
Local Community*

CONNECTICUT COLLEGE

creating thousands of jobs for today's employees. Through regional partnerships, our students gain hands-on experience solving real-world problems at Connecticut's nonprofits, small businesses, and local schools—exemplifying what it means to put the liberal arts into action. That is why I am proud to share with you Connecticut College's impact by the numbers.

Katherine Bergeron
President, Connecticut College

As we continue navigating through a historic global pandemic, the spirit of friendship between Connecticut College and the City of New London remains strong. For more than 100 years, we have called New London our home, and we have been especially proud to find creative ways to support our host community during these challenging times. We remain a strong economic driver for the greater New London community and the State of Connecticut,

Community Service and Support

Connecticut College is proud to serve the greater New London region during the COVID-19 pandemic. In March 2020, the College donated hundreds of surgical masks and N-95 respirators to Ledge Light Health District and the New London Fire Department, and sent over 5,000 gloves to L+M Hospital. Conn also contributed \$1,000 worth of fresh produce and food to the New London Community Meal Center, the New London Area Food Pantry, and the Salvation Army.

Through a partnership with the City of New London, temporary housing in Abbey House was offered to first responders in need of care. Four Conn students worked directly on the front lines during the height of the pandemic as emergency medical technicians. And, the campus was offered to the state as a vaccination site.

Conn's four-year integrative curriculum teaches complex thinking, real-world problem-solving and, ultimately, ensures successful lives and careers for students beyond college. Connections was cited by 92 percent of the Class of 2024 as one of the main reasons they chose to enroll at Conn. In recognition of this work, Connecticut College has been named a Most Innovative School by U.S. News and World Report for three years in a row.
