

Diversity Data on Faculty Members and Full-Time, Degree-Seeking Undergraduates Fall 2015

When reporting campus population data to the federal government, institutions use a set of race/ethnicity categories that identify non-U.S. citizens as "nonresident aliens" regardless of their race/ethnicity. The tables below show those figures as well as the ones that result when we count our non-U.S. students and faculty members by their race/ethnicities. These approaches yield two different measures of student and faculty diversity, neither of which is necessarily more accurate. However, for some purposes, we are interested in knowing our percentage of "domestic" students and faculty of color. It should be noted that some students and faculty members counted as U.S. citizens are (a) foreign-born, naturalized citizens, (b) permanent residents, or (c) dual citizens.
