

What is Degree Works?

Degree Works is a web-based academic planning tool, used to help students and advisers monitor progress toward degree completion. The Degree Audit indicates how each course applies to requirements. Degree Works can be accessed 24/7 through CamelWeb. Students can access Degree Works from a link in Academic Resources, on the My Academics tab. Advisers can access Degree Works from a link in the My Students Links, on the My Students tab. Degree Works User Guides and an FAQ are available at <http://www.conncoll.edu/academics/registrar/degree-works/>.

Navigation

Students will see their own degree audit as soon as they access Degree Works.

Advisers will see the audit of their first advisee once they access Degree Works. Students are listed alphabetically. To navigate to another student's degree audit, advisers can either use the arrows in the Name field to advance or go back, or click on the first student's name to see a drop-down menu of all of their advisees. Click on the name of the student whose degree audit will be reviewed.

Adviser navigation:

Unofficial Transcript

An unofficial transcript can be accessed at the top of the degree audit. Click on the Unofficial Transcript link and select "landscape" when printing. For information about ordering official transcripts, please go to <http://www.conncoll.edu/academics/registrar/transcripts/>

Student Information Header

The Student Information Header appears at the beginning of the degree audit and contains the following information:

- Student's Name
- Camel Number
- Class Year
- Current Dean and Adviser(s)
- Overall GPA (all courses)
- Institutional GPA (Connecticut College courses)
- Declared Majors
- Declared Minors
- Concentration within the Major (if applicable)

The Student Information Header also displays a visual representation of the estimated progress that has been made toward the degree (including in-progress courses). The first bar (Requirements) displays the estimated progress toward completion of degree requirements. The second bar (Credits) displays the estimated progress toward completion of overall total credits required for the degree.

Estimated Progress Toward Degree

This is an estimation of your progress and includes coursework in progress.

Degree Block – Please refer to [Academic Regulations and Degree Requirements](#) for an overview of degree requirements. The Degree Block appears after the Student Block and outlines all of the requirements that need to be completed in order to earn a Bachelor of Arts degree at Connecticut College. This block indicates progress toward completion of those requirements, which include:

Total credits requirement: A minimum of 128 credits are required for the degree. *Only four one-credit courses may be counted toward the 128 total for students matriculating prior to fall 2019; only eight one-credit courses may be counted toward the 128 total for students matriculating in or after fall 2019.* Any one-credit courses taken in excess of four for students matriculating prior to fall 2019 or in excess of eight for students matriculating in or after fall 2019 will not be counted toward the credits applied toward the degree and will appear at the bottom of the audit in the Not Counted block with the notation “Maximum Credits Exceeded”. Not Counted courses refer to degree requirements; these courses will appear on a student’s transcript.

64 credits in residence: A total of 64 credits must be taken at Connecticut College. Please note that students must be in residence at Connecticut College as a full-time student during the 7th or 8th semester (one semester of the senior year).

Upper-level requirement: A total of 64 credits are required at the 200 level or higher. *Please note that students will be required to take in excess of 128 credits in order to satisfy degree requirements if they take more than 64 credits at the 100-level.* For example, a student who takes 68 100-level credits will need to take 132 credits (64 at the 200-level or higher) to complete degree requirements.

Minimum GPA: A minimum overall GPA of 2.0 is required.

Writing Across the Curriculum Requirement: Refer to the Writing Across the Curriculum block for more information (page 6)

ConnCourse Requirement: Refer to the ConnCourse block for more information (page 6)

World Languages and Cultures Requirement: Refer to the World Languages and Cultures block for more information (page 6)

Modes of Inquiry Requirement: Refer to the Modes of Inquiry block for more information (page 7)

Pathway or Centers Requirement: Once a student has been accepted into a Pathway or Center, refer to the Pathway or Center Requirements block for more information (page 7)

Major Requirement: Students must satisfy the requirements for at least one major. Once a student has declared a major, refer to the Major block for more information.

Minimum Courses Outside of a Single Department: Students must take at least 64 credits outside of any single department. *Please note that students will be required to take in excess of 128 credits in order to satisfy degree requirements if they take more than 64 credits within a single department.* Courses that exceed 64 credits in any one department will not be counted toward the 128 required for the degree and will appear in the Not Counted block with the notation “Maximum Credits Exceeded”. Not Counted courses refer to degree requirements; these courses will appear on a student’s transcript.

Courses in Common: Only one course may be counted in common between a minor and another major or minor. Three to five courses may be counted in common between two separate majors, depending on the number of courses required for each major. Detailed information can be found on the [Major Overlap Form](#). Courses which exceed these limits will not be applied to the requirements for the shared majors/minors.

Example of Degree Block in Progress

In this example, the student has 80 more credits remaining to reach the 128 credit requirement. Of those 80 credits, 48 need to be taken at the 200 level or higher. The student has completed the Writing, ConnCourse, and World Languages and Cultures requirements. The Modes of Inquiry requirement is in progress. Additional requirements are needed to complete the Pathway or Center requirements and the major.

SOCIAL JUSTICE AND SUSTAINABILITY - Students enrolled in an Integrative Pathway must complete courses in at least four of the five Modes of Inquiry, at least three of which must be within their Pathway		

Students should meet with their advisers regularly to discuss progress toward degree requirements, including Connections Program requirements.

Major Block(s)

Requirements for a student's declared major appear after the Modes of Inquiry block (or the Pathway or Center Requirements block once a student has been accepted into a Pathway or Center). If a student has declared more than one major, the majors appear on the degree audit the order in which they were declared. The first major appears before the second declared major, etc. Students should meet with their advisers regularly to discuss degree requirements, including requirements for any declared majors and minors.

A Provisional Major GPA appears in the header of the Major block. This GPA is provisional because it only calculates the courses that appear within the Major block. A student's major GPA, used for departmental distinction calculation, is considered to be any course that could have applied toward the major, including courses that appear elsewhere in the degree audit (for example, in the Connections or Elective blocks or in another Major or a Minor block). A student's final major GPA, which is calculated by the department for graduating seniors and does not appear on the degree audit, will include all of these courses.

Major in Behavioral Neuroscience						Catalog Year:	2014-2015
						Provisional Major GPA:	3.893
A score of 4 or 5 on the Advanced Placement Psychology Examination or its equivalent may be substituted for PSY 100. This exception requires the student to choose an additional laboratory course for the major. Independent research, either as Individual Study or Honors Study, is strongly recommended.

Minor Block(s)

Any declared minors appear as Minor blocks, after the Major blocks, and outline requirements for the minor(s).

Minor in Arabic Studies						Catalog Year:	2015-2016
Students with prior knowledge of Arabic may, in consultation with their adviser, begin the language sequence at a higher level. Students may substitute an individual study in Arabic for the course in English. No more than two courses taken at other institutions may be counted toward the minor.

Elective Courses Block

The Elective Courses block appears after all declared majors and minors on the audit. Any courses that have not been applied to the previous blocks, including Connections and Major or Minor, will appear as Elective courses as long as the student received passing grades and the courses are being counted toward the degree requirements.

If a course that appears in the Electives block has been approved to apply toward the student's major or minor, a signed [Course Exception Form](#) must be submitted to the Registrar's office. Once the form has been received, the course will appear in the appropriate Major or Minor block.

Elective Courses		Credits: 4	Classes: 1
BIO 314	BEHAVIORAL NEUROSCIENCE	INPR	(4) Fall 2015

Insufficient Block

Courses for which a student received an insufficient (failing) grade or that the student withdrew from will appear after the Electives block, in the Insufficient block. Insufficient courses refer to degree requirements; these courses will appear on a student's transcript.

In Progress Block

Courses in progress will appear after the Electives and Insufficient (if applicable) blocks, within the In Progress block. These courses will also appear elsewhere in the audit (for example, in the Connections, Major, Minor, or Electives block), depending on what requirement they satisfy.

In-progress		Credits: 16	Classes: 5
ENG 150	ESSENTIALS OF LITERARY STUDY	INPR	4 Fall 2015

PHY 107	GENERAL PHYSICS	INPR	4 Fall 2015
PHY 107L	GENERAL PHYSICS LAB	INPR	0 Fall 2015

Not Counted Block

Courses that exceed the maximum number that can be counted toward the degree will appear in the Not Counted block, at the bottom of the audit. For example, any courses taken over the maximum number of four one-credit courses for students who matriculated prior to Fall 2019 or over the maximum number of eight one-credit courses for students matriculating in or after Fall 2019, and/or any courses taken over the maximum number of 64 credits in any single department, will appear in the Not Counted block. Not Counted courses refer to degree requirements; these courses will appear on a student's transcript.

What If

What If allows a view of the student's degree audit using other majors, minors, or concentrations other than what has been declared. This is useful for students considering adding or changing a major or minor. Click on the What If link under Worksheets, enter search criteria (if searching for a concentration, choose both the major and the concentration), and then click Process What-If. To return to the degree audit, click on Audit under Worksheets.

Legend

 Complete	The requirement has been completed.
 Not Complete	The requirement is NOT complete; refer to Still Needed within that requirement for more information.
 Complete except for classes in-progress	The requirement will be complete once classes in-progress are successfully passed.
 Nearly complete - see adviser	The requirement is almost complete – contact your adviser to confirm final steps needed.
(T) Transfer Class	Work accepted for transfer, which was taken prior to a student’s attendance, during Study Away, or elsewhere during a winter/summer session or while a student was on leave, appears on the audit with “Satisfied by: Name of Institution” beneath the course. Transfer work generally appears in the Elective Courses block unless the course has been approved to satisfy a Connections or major/minor requirement.
@ Any course number	The @ sign is a wildcard placeholder for any number or letter. For example, students who need to take one class in FRH 493@ can take FRH 493A, FRH 493K, FRH 493M, FRH 493N, or FRH 493O in order to satisfy this requirement.
