**Product Name:** LIQUID WRENCH WHITE LITHIUM GREASE WITH CERFLON  
**MSDS No.:** L606

### IV. First Aid Measures:

**Emergency and First Aid Procedures:**
- **Eye Contact:** Flush eyes with clean water for 15 minutes while lifting eyelids. Get prompt medical attention.
- **Skin Contact:** Wash with soap and water thoroughly. If adverse effects persist, get prompt medical attention. Launder contaminated clothing before reuse.
- **Inhalation:** Remove to fresh air. If breathing becomes difficult get prompt medical attention.
- **Ingestion:** DO NOT INDUCE VOMITING! Call Poison Control Center, physician, or hospital emergency room immediately.

**Note to Physicians:**
N/E

### V. Fire Fighting Measures:

**Suitable Extinguishing Media:**
- Water Fog, Foam, Carbon Dioxide, Dry Chemical

**Unsuitable Extinguishing Media:**
- Do not use forced water stream as this could cause the fire to spread.

**Products of Combustion:**
- May liberate corrosive hydrochloric acid or toxic phosgene fumes.

**Protection of Firefighters:**
- Wear self-contained positive pressure breathing apparatus and protective clothes. Use shield to protect from rupturing and venting containers. At elevated temperatures containers may vent, rupture or burst, even violently.

### VI. Accidental Release Measures:

**Personal Precautions:**
- Persons not wearing protective equipment should be excluded from area of spill until clean-up has been completed.

**Environmental Precautions:**
- Prevent run-off to sewers, streams, or other bodies of water. If run-off occurs, notify proper authorities as required that a spill has occurred. Run off to sewer may create fire or explosion hazard.

**Methods for Containment:**
- Dike or contain spill and absorb with inert materials (sand, sawdust, absorbent sweeping compounds, rags, etc).

**Methods for Cleanup:**
- Using a non-metallic scoop, place contaminated material into an approved chemical waste container. Where possible, vacuum spilled liquid using an explosion proof vacuum to recover material.

**Other Information:**
- Prevent run-off to sewers, streams, or other bodies of water. If run-off occurs, notify proper authorities as required that a spill has occurred.

### VII. Handling and Storage:

**Handling Precautions:**
- Use with adequate ventilation and proper protective equipment.
- Do not use or store near fire, sparks, or open flame. Do not puncture or incinerate container. Exposure to temperatures above 120° may cause container to vent, rupture, or burst.

**Storage Precautions:**
- Vapors are heavier than air and will collect in low areas. This material or its vapors when in contact with flames, hot glowing surfaces or electric arcs can decompose to form hydrogen chloride gas and possible traces of phosgene. Avoid contamination with water supplies.

**Engineering Controls:**
See above for applicable exposure limits. Maintain adequate ventilation. Avoid breathing vapors. In restricted areas, use approved filters designed to remove vapor. In confined areas, use approved air line type respirator or hood. A self-contained breathing apparatus is required for vapor concentrations above TLV limits.

**Personal Protective Equipment:**
For prolonged exposure wear protective safety glasses, gloves, and apron.
